

# LM35 temperature sensor

## Overview

This lesson will teach you how to use the LM35 sensor. You will see the current temperature.

## Specification

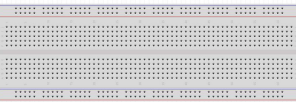

Please view "LM35-datasheet.pdf"

Path: \Public\_materials\Datasheet\ LM35-datasheet.pdf

## Pin definition

## Hardware required

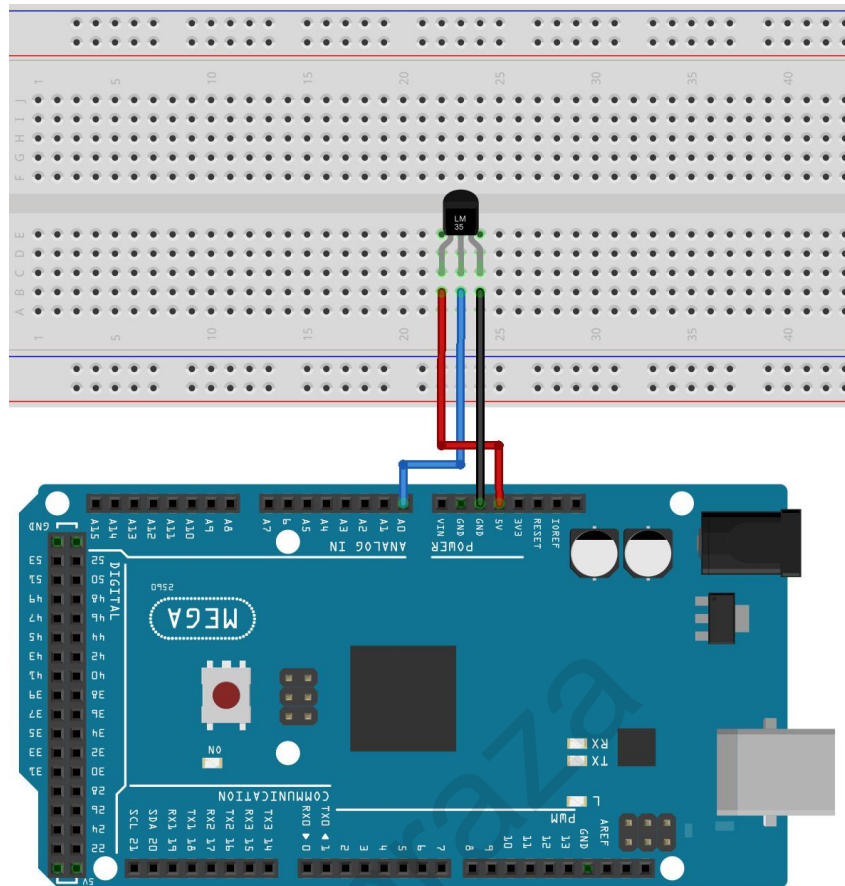

Material diagram	Material name	Number
	LM35	1
	USB Cable	1
	MEGA 2560	1
	Breadboard	1
	Jumper wires	Several

## Connection

## Schematic

## Connection diagram

### Connection:

LM35	Arduino
GND	-> GND
OUT	-> A0
VCC	-> +5V

## Sample code

Note: sample code under the **Sample code** folder

```
int potPin = A0;    // initialize analog pin 0 for LM35 temperature sensor
void setup()
{
    Serial.begin(9600); // set baud rate at "9600"
}
void loop()
{
    int val;    // define variable
    int dat;    // define variable
    val=analogRead(0); // read the analog value of the sensor and assign it to val
    dat=(125*val)>>8; // temperature calculation formula
    Serial.print("Tep:"); // output and display characters beginning with Tep
    Serial.print(dat); // output and display value of dat
    Serial.println("C"); // display "C" characters
    delay(500);    // wait for 0.5 second
}
```

## Example picture

## Language reference

**Tips** : click on the following name to jump to the web page.

If you fail to open, use the Adobe reader to open this document.

[serial](#)

## Application effect

Open the serial port monitor, you will see the current temperature.

## Application effect

After uploading the program, open the serial port monitor, you will see a series of temperature values

\* About Smraza:

\* We are a leading manufacturer of electronic components for Arduino and Raspberry Pi.

\* Official website: <http://www.smraza.com/>

\* We have a professional engineering team dedicated to providing tutorials and support to help you get started.

\* If you have any technical questions, please feel free to contact our support staff via email at [support@smraza.com](mailto:support@smraza.com)

\* We truly hope you enjoy the product, for more great products please visit our
