

Making Sounds

Overview

In this lesson, you will learn how to make sounds with your Arduino. First you will make the Arduino play a 'musical' scale and then combine this with a photocell, to make a Theremin-like instrument that changes the pitch played as you wave your hand over the photocell.

Specification Passive buzzer:

Working Voltage: 3V/5V Resistance: 16Ohm

Resonance Frequency: 2KHZ

Photoresistor:

Model: GL5528

Maximum Voltage: 150 Volt DC

Spectral Peak: 540nm

Maximum Wattage: 100mW

Operating Temperature: $-30 \sim +70^{\circ}$ C Light Resistance (10 Lux): 10-20Kohm

Pin definition

Passive Buzzer Long pin Short pin

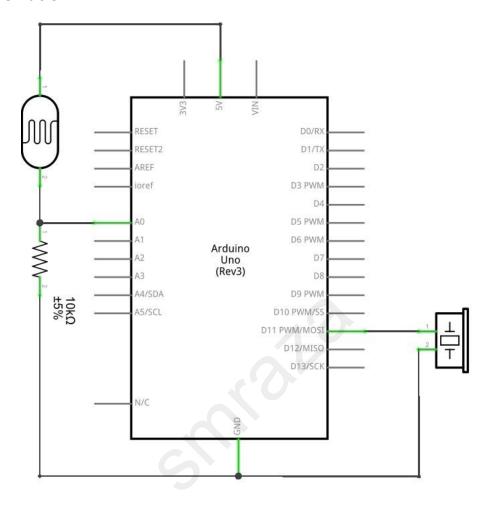

Hardware required

Material diagram	Material name	Number
	Photoresistor	1
	Passive buzzer	1
4113-	10KΩ resistor	1
	USB Cable	1
	UNO R3	1
	Breadboard	1
	Jumper wires	Several

Connection

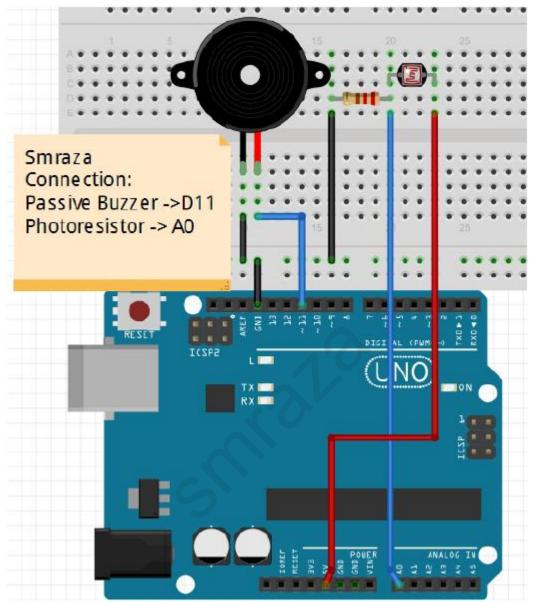

Schematic

3

Connection diagram

Note: Photoresitor's pin is not divided into positive and negative polarity

4

Sample code

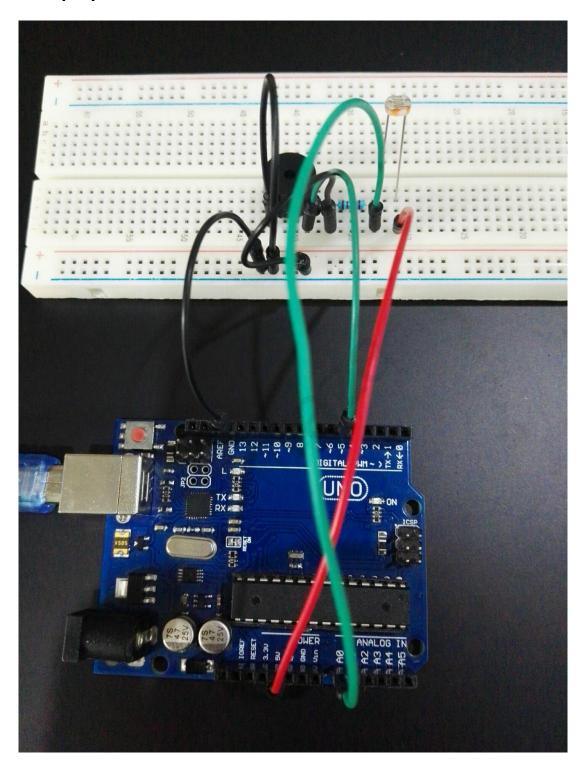

```
Note: sample code under the Sample code folder int speakerPin = 11; int photocellPin = A0; void setup()
{
            int reading = analogRead(photocellPin); int pitch = 200 + reading / 4; tone(speakerPin, pitch);
}
//Tips: Try changing the value 4 in the line below to lower and higher values. //int pitch = 200 + reading / 4;
```

We simply take an analog reading from A0, to measure the light intensity. This value will be in the range of something like 0 to 700.

We add 200 to this raw value, to make 200 Hz the lowest frequency and simply add the reading divided by 4 to this value, to give us a range of around 200Hz to 370Hz.

Example picture

Language reference

tone()
+ (addition)
/ (divide)

Application effect

When you use the hand slowly close to the photosensitive resistance, the buzzer sounds will be changed.

- * About Smraza:
- * We are a leading manufacturer of electronic components for Arduino and Raspberry Pi.
- * Official website: http://www.smraza.com/
- * We have a professional engineering team dedicated to providing tutorials and support to help you get started.
- * If you have any technical questions, please feel free to contact our support staff via email at support@smraza.com
- * We truly hope you enjoy the product, for more great products please visit our
